Projects

MEARN Stack	**TRAVEL MEMORIES** *Organisation* Github: https://github.com/rofson17/travel-memoirs.git	
Python	**NOTEPAD CLONE** *Organisation* Github: https://github.com/rofson17/notepad-using-tkinter.git	

Profile

I'm a web developer with in-depth experience in MERN Stack. In a nutshell, I create websites that help organizations address business challenges and meet their needs. I manage everything from website navigation and layout to a company's web hosting and security architecture. My expertise lies within front-end web apps, and the main languages in my tech stack are JavaScript, React, and of course HTML/CSS.

Personal information

Birthdate
21-02-2003
Gender
Male
Residence
Bogura,Bangladesh
Nationality
Bangladeshi
